

CEF[®] Core

All Data in One Feed

The real-time data feed CEF[®] Core delivers all market data sets offered by Market Data & Analytics. CEF[®] Core provides clients worldwide with prices, volumes and indices bundled in information products.

It is the optimal data stream for information providers (vendors), traders and fund managers.

Data from the Source at Top Speed

- DAX[®] index family data faster than from any other source
- Complete real-time Xetra[®] trading chronology
- Complete real-time Eurex[®] trading chronology with netted, bandwidth optimized pre-trade transparency
- Real-time data of DJ STOXX[®] Indices
- Real-time data from the trading platforms Eurex Bonds[®] and Eurex Repo[®]
- Real-time data from Germany's Regional Exchanges, the Irish Stock Exchange, the European Energy Exchange (EEX[®]) and the Bulgarian Stock Exchange – Sofia.
- Real-time data of iBoxx Indices and iBoxx Consolidated Prices as well as of eb.rexx[®] Indices
- MNI Main Wire: real-time macro-economic news from analysis to breaking news

Selection Options

If you wish to obtain market data on certain securities only, we would be glad to advise you on the use of software clients which enables you to individually select either 100 or 3000 instruments.

You make your selection on ISIN level and can change it over the course of the day.

State-of-the-art Technology

- Low-latency – data throughput under 10 milliseconds
- Reliable broadcast and recovery functions
- System availability of more than 99.8 percent
- Dynamic message compression preventing data delay in case of peak load times
- Access via leased lines, Internet and VPN

Available Order Book Depth

The most information products distributed via CEF[®] Core are available as both Level 1 and Level 2 products. Level 1 provides the last traded prices as well as best bid and ask prices, each with the respective order volumes, Level 2 contains all information from Level 1, and additionally order book depth up to ten best bid/ask prices plus order volumes.

Further Information

You will find descriptions of all the real-time information products available via CEF[®] Core on the Internet at:

www.deutsche-boerse.com/mda

> Real-time Market Data.

In addition to CEF[®] Core, three further CEF[®] data feeds are on offer: CEF[®] ultra+ Eurex, CEF[®] ultra+ Xetra and CEF alpha+[®] macro.
