

# NanoEquity Europe 2006

Investment forum, 10 – 11 July 2006, Frankfurt/Main

# Nanotechnology – A Growing Sector

Nanotechnology is one of the key technologies of the future. During the 2nd European nanotech investment forum we want to resume the discussion about the big potential of nanotechnology for the European capital market. Technology and capital market experts will discuss if the latest nanotech capital market transactions show a new IPO-trend and look at the risks of the nanotechnology. The program of the forum includes company presentations, plenary lectures and workshops.

Conference languages are German and English.
