

ExServes Connect

Full-Service Package for access to Deutsche Börse Group's trading systems

ExServes® Connect is a full service package from Deutsche Börse AG that facilitates access for trading members to Deutsche Börse Group's trading systems. Delivery of software and hardware, onsite installation and configuration, as well performing network and integration tests, are all tasks fulfilled by Deutsche Börse AG, providing you a complete, hands off, turnkey solution.

ExServes Connect offers:

- n Delivery of
 - software and hardware components for MISS and ETS-based servers
 - router
 - technical infrastructure of your MISS to Router LAN
 - front end software for Deutsche Börse Group's trading systems
- n Installation and configuration of the above named components
- n Performance of the mandatory system tests
- n Technical introduction to the system
- n Provision of a complete turnkey solution

These are your advantages:

- n Freeing up of your in-house resources
- n Allows you to concentrate on your core competencies

- n Save time and costs with our rapid provisioning
- n Delivery of high quality, brand name IT-equipment
- n Fully compliant with all technical regulations of Deutsche Börse Group
- n Professional service concerning the connection to Deutsche Börse Group's trading systems
