

Expansion of the Frankfurt Stock Exchange

Your event and conference spot in the heart of the city

Deutsche Börse is expanding the historic central Frankfurt building that is home to the famous trading floor seen so often in the media into an attractive focal point for the financial center of Frankfurt and for the general public.

New offering in the Frankfurt Stock Exchange

A visitor center, an exclusive lounge and a spacious conference center will in future provide space for social and business events. Deutsche Börse is also making these areas and the offering there available to business and cooperation partners.

The visitor center and the lounge will be finished in the first phase of construction. The project will be completed in 2020 with the opening of the conference center. On our [blog](#) you can inform yourself about the current status of the construction measures.

Events and conferences

The **Deutsche Börse X-Lounge** impresses visitors with its unique view of the famous trading floor. It unites the latest technology and stylish interior design with the features of the listed stock exchange building.

You will find room for your exclusive event of up to 120 people across two levels: whether a business lunch, reception, get together, meeting or workshop – your event will become a unique experience at Börsenplatz.

As a central focal point in the heart of Frankfurt, the **Deutsche Börse Conference Center** will in future provide facilities with a capacity of 12 to 200 people and two break out-areas. Whether a press conference, annual general meeting, panel discussion or workshop – the adaptable facilities allow numerous options for use.

Bell ringing

One of the best-known images from the trading floor is the ringing of the bell to open trading at a company's listing. Use this special moment to present your individual success story at an **opening bell event** or as part of your **IPO ceremony**.

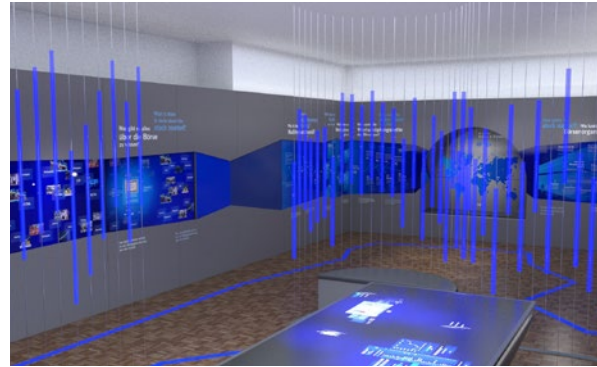

From the presentation of your event on the façade, to the positioning of your brand on the trading floor, to the up-market entertainment of your guests – we make your bell ringing a success!

Education and experience

The **Deutsche Börse Visitors Center** will include an interactive, free exhibition on the topics of stock exchange, share trading and retirement provision for visitors of different ages and levels of knowledge. You can expand your knowledge of these subjects at a variety of multimedia stations.

Also, visit one of our talks on topics that facilitate entry into the world of the stock exchange or an area of specialisation. At an exclusive guided tour of the trading floor for up to 10 people, you can see traders and the media at work live on location and stand on the parquet that you and your guests know from television.

In addition to the Deutsche Börse Visitors Center, the **Capital Markets Academy** (Deutsche Börse Group's training provider) offers you on-site seminars for a fee on key areas of the capital market and helps you on your way to becoming a stock market professional.
