<tr>
<td>IT &amp; new technologies</td>
</tr>
<tr>
<td>CFO perspective: financials and guidance</td>
</tr>
</tbody>
</table>
Key pillars of Deutsche Börse’s “Roadmap 2020” growth strategy

I. Organic growth
   Exploit secular growth opportunities

II. M&A
   Scale through asset class consolidation

III. Technology
   Maintain leading IT position

IV. Execution discipline
   Strengthen execution discipline along cost control, financial steering and general management

Reduce valuation-multiple discount to peer group
Good progress along all “Roadmap 2020” pillars

1. **Organic growth**
   - Net revenue (+13%) and net profit (+17%) growth in 2018 significantly above guidance
   - For 2019 at least 5% secular net revenue growth and around 10% net profit growth expected; Q1/2019 in line with guidance

2. **M&A**
   - Five attractive bolt-ons since 2018 in Commodities, FX and IFS; Axioma acquisition significantly expands position in data / index
   - Focus in 2019 is on further M&A to gain scale in the still smaller asset classes; cash / debt firepower ~€1.5 billion + equity

3. **Technology**
   - Distributed-ledger technology: centre of excellence drives use cases to real-life applications (e.g. HQLAx, Swiss digital asset JV)
   - Public cloud: Deutsche Börse at forefront of regulatory compliant cloud adoption in the European financial services industry

4. **Execution discipline**
   - Organisational enhancements: Executive Board, segments, M&A capabilities, tighter steering and consequence management
   - Structural cost improvement programme largely implemented; savings above €100 million target and faster ramp-up

**Significant improvement of valuation multiples**
Organic growth – midterm targets significantly exceeded in 2018; "Roadmap 2020" targets confirmed

Net revenue growth target (organic)

1) Adjusted for exceptional items
## M&A – individual approach required for different external growth areas

<table>
<thead>
<tr>
<th>M&amp;A focus on five growth areas</th>
<th>Ingoing position</th>
<th>M&amp;A strategy</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Pre-trading</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1 Data / Index</td>
<td>Deutsche Börse is lagging behind in most dimensions: products, clients (buy-side) and geographies</td>
<td>Catch up with peers; don’t overpay; use partnership formats</td>
</tr>
<tr>
<td><strong>Trading &amp; clearing</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2 Commodities</td>
<td>Deutsche Börse offers well established platforms, however, scale could be further improved</td>
<td>Consider assets that help to gain scale and add value through growth and synergies</td>
</tr>
<tr>
<td>3 Foreign exchange</td>
<td>Largely white spot for Deutsche Börse on the trading &amp; clearing layer; good coverage in post-trading</td>
<td>Limited availability of assets, but ongoing monitoring of market</td>
</tr>
<tr>
<td>4 Fixed income</td>
<td>Deutsche Börse provides a leading solution to increase the efficiency of fund processing market</td>
<td>Consider assets with value adding products &amp; geographies to grow and expand leading position</td>
</tr>
<tr>
<td><strong>Post-trading</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>5 Investment funds</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
M&A – focused and disciplined approach started in 2018 yielded first results

M&A delivery since 2018

1. **Data / Index**
   - **Axioma** acquisition strengthens Deutsche Börse’s pre-trading offering and improves access to the buy-side (April 2019)

2. **Commodities**
   - Acquisition of **Grexel Systems**, the leading provider of energy certificate registry in Europe (December 2018)
   - **Spark Commodities** JV with Kpler for liquefied natural gas trading (April 2019)

3. **Foreign exchange**
   - Acquisition of the spot FX platform **GTX ECN** allowed for expansion into the US and the dealer-to-dealer market segment (May 2018)

4. **Investment funds**
   - Acquisition of **Swisscanto Funds Centre** to expand services with management of distribution contracts and data processing (April 2018)
   - Acquisition of **Ausmaq**, a managed funds services business for the steadily growing Australian fund market (May 2019)
M&A – Axioma acquisition serves as basis to create a leading index and portfolio / risk analytics business

- Transaction is fully in line with Deutsche Börse’s “Roadmap 2020” strategy
- Strengthens Deutsche Börse’s pre-trading offering and improves access to the buy-side
- Combination is highly complementary (clients, products and geographies) and creates meaningful synergies of around €30 million by the end of 2021 (annualised run-rate, pre-tax)
- New company will be a buy-side intelligence leader uniquely positioned to benefit from trends that are reshaping investment management (active to passive, quant- and factor-investing, demand for risk analytics, and index customisation) and thus, strong value generation is expected
- Partnership with General Atlantic will help to further accelerate growth potentially including further M&A
- Transaction structure crystallises value of index asset and preserves the Group’s M&A firepower
### Technology – capabilities in new technologies are growing steadily and first products will be ready in 2019

<table>
<thead>
<tr>
<th>Four transformational technology trends</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Public cloud</strong></td>
</tr>
<tr>
<td><strong>DLT / block-chain</strong></td>
</tr>
<tr>
<td><strong>Robotics / automation / AI</strong></td>
</tr>
<tr>
<td><strong>Big data / advanced analytics</strong></td>
</tr>
</tbody>
</table>

- **First contract** regarding public cloud operation has been signed with Microsoft
- **Contract meets regulatory requirements to move significant parts of operations into the public cloud** over time

- **Strategic partnership** with Swisscom and Sygnum to build trusted digital asset ecosystem for tokenisation of assets
- **HQLAx**: innovative blockchain solution for collateral management based on tokens to improve collateral mobility

- **Centre of excellence** for automation established; several automation tools already in production for task automation; further steps defined along use case roadmap

- **New client requirements** regarding data / analytics are addressed by the creation of a buy-side intelligence leader as part of the Axioma acquisition
Execution discipline – strengthened discipline along cost control, financial steering and general management

- **New executive board** set-up completed in 2018 with stronger business and technology focus
- **New segment structure** with increased P&L responsibilities to realise secular growth and improve transparency
- **Structural cost improvement programme** largely implemented; savings above €100 million target and faster ramp-up
- **Upgraded M&A capabilities** allow for systematic execution of external growth opportunities
- **Tighter steering** and strict **consequence management**
- **Regained trust and support** of internal and external stakeholders
Diversified, scalable and resilient business portfolio serves as basis for further growth

STOXX (index) – Axioma transaction: combining unique strengths and accelerating access to the buy-side

Business overview and attractions

- **#4 global** provider of rules-based strategies, benchmarks, and datasets, **#1 European tradable index**
- **Usage-based licensing** providing recurring revenues (ETFs, ETDs, structured products, mandates, data), leveraging issuing venues Eurex and Xetra
- **€145 million net revenue with 12% CAGR (2015-18)** as award-winning innovator in investment strategies

Revenue structure STOXX / DAX + Axioma

1<sup>)</sup> Indicative pro-forma view combining IFRS (STOXX / DAX) and US GAAP (Axioma)

Global, leading edge provider of multi-asset class portfolio / risk management software solutions and analytics with >7,000 professional users

- **>400 customers** including leading asset managers and asset owners
- **20% revenue CAGR (2015-18)** from product and client expansion
- **~US$100 million** annualised contract value (~75% from software licences)
STOXX (index) – Axioma transaction: strong strategic rationale for highly complementary combination

**Vision**
Create a buy-side intelligence leader with open infrastructure
Analytics, indices, performance, risk, compliance, global coverage

<table>
<thead>
<tr>

<tr>
<td>Revenue model</td>
<td>Asset based fees, brand &amp; data licensing, subscriptions</td>
<td>Software sales &amp; licensing</td>
</tr>
</tbody>
</table>

**Strategic rationale**
- Combination of Axioma risk analytics and Deutsche Börse’s index business creates unique offering to benefit from macro industry trends
- Flexibility / open architecture approach creates future-proof positioning and ability to increase scale
- Leading capabilities in customisation create opportunity to address attractive growing market segments
- Highly complementary client focus, regional footprint and revenue model results in meaningful synergies

**Opportunities**
- New tools and functionalities (e.g. benchmark studio)
- New analytics and indices
- Add-on acquisitions in index area
- Standard APIs – new partnerships
- Attractive opportunity for talent development
STOXX (index) – Axioma transaction: new entity with unique entrepreneurial set-up

Transaction highlights

- Deutsche Börse to acquire Axioma for **US$850 million** cash / debt free and combine it with its index business valued at **€2.6 billion**
- General Atlantic to invest **~US$715 million** to fund Axioma acquisition; key Axioma management, incl. Sebastian Ceria (CEO), to reinvest **~US$105 million**
- **Ownership**: Deutsche Börse ~78%, General Atlantic ~19% and Axioma management ~3%
- **Medium-term partnership** with General Atlantic with multiple optionalities for Deutsche Börse
- Transaction **structure preserves M&A fire power** for Deutsche Börse
- Transaction expected to **close in Q3/2019**

Simplified transaction structure

- **Deutsche Börse**
  - ~78% ownership
- **General Atlantic**
  - ~19% ownership
- **Axioma management**
  - ~3% ownership
- **New company**
  - 100% ownership
- **Index business**
  - DAX (GER)
  - STOXX (CH)
- **Axioma (US)**

---

1) Preliminary ownership percentages; final figures depend in particular on roll-over amount
2) Simplified structure
STOXX (index) – Axioma transaction: immediate joint opportunities enable strong secular growth

Joint tangible growth opportunities

- Accelerate penetration of investment managers with modern tools and analytics
- Capitalise on Axioma’s buy-side access to increase usage of STOXX benchmarks
- Leverage combined IP and data sets to launch and licence innovative investment solutions and analytics, esp. around factor investing
- Build on existing Eurex relationship to generate new futures and options based on Axioma / STOXX analytics and models
- Integrate index creation and production capabilities in Axioma’s product suite to enable creation of customised investment solutions
- Use joint footprint as a platform for further acquisitions, increasing buy-side workflow coverage

Synergies of ~€30 million by the end of 2021 (annualised run-rate, pre-tax)

Net revenue guidance

€m

midterm (organic) >10% CAGR

t/o share of secular growth: very high

Status: ✓

2017: 128
2018: 145
2020E: (illustrative)
Data – global real-time distribution network for market data

Business overview and attractions

- **Global real-time distribution network** for data with deep market penetration (>4,500 institutions, 550 data vendors connected)
- **Proprietary and partner data** assets from pre-to post-trade – 90% recurring revenues (data licence fees)
- **Innovation platform** for analytics leveraging Group-wide data pools
- Comprehensive service offering around **trade and transaction reporting** for capital market participants

Net revenue breakdown 2018

100% = €170 million

- Cash and derivatives: 67%
- Regulatory services: 10%
- Other: 23%

Secular growth opportunities

- Further expansion of **proprietary analytics and services** combining Deutsche Börse, client and partner data
- Commercialise **yet untapped data assets** of the Group and open platform to external data sets
- **Inorganic expansion opportunities** in adjacent data business areas, such as new asset classes or ESG data
- **Expand regulatory service offering** with new regulations (e.g. SFTR) and analytics

Trading and clearing – benchmark across major asset classes

1. Eurex (financial derivatives)
   - **Index and equity**
     - Largest European index and equity liquidity pool
     - Strong global benchmark with EURO STOXX, VSTOXX, DAX, MSCI
   - **Fixed income**
     - Largest European interest rate liquidity pool
     - Strong European benchmark with BUND, BOBL, SCHATZ, OAT, BTP, OTC IRS, EurexRepo

2. EEX (commodities)
   - Leading European energy exchange with US spearhead
   - Strong European benchmark with PHELIX, EPEX, PEGAS

3. 360T (foreign exchange)
   - 360T top ranked global FX platform
   - Strong global brands and distribution with 360T and 360TGX

Secular growth drivers
- Shift to buy-side
- From active to passive
- Shift to central clearing
- From OTC to on-exchange (ETD)

Strategic positioning
- The global venue for benchmark indices
- The global venue for Euro yield curve
- The preferred global commodities exchange
- An innovator in global FX markets
Eurex (financial derivatives) – number one in open interest ahead of global peers

- **Open interest development against peers**

  - 18% increase in 2018 far above global peers
  - Increase largely driven by directional buy-side rather than volatility-driven proprietary trading flows
  - Increase driven by longer dated risk transfer positions migrating from OTC-to-ETD

- **Product concentration at Eurex**

  - 10% drop in product concentration contrasts with peers
  - Investment-driven products like MSCI and total-return futures contributed above average increase
  - Volatility and dividend derivatives also contributed above average to increase

**Reduced cyclical dependency**

**Reduced product concentration**
Eurex (financial derivatives) – one of the world’s largest derivatives exchanges and clearing houses

Business overview and attractions

Liquidity
- **Leading global venue**
  Global benchmark to trade European indices and the Euro yield curve

Efficiency
- **Unique clearing offering**
  Integrated clearing, collateral and margining for ETD and OTC

Innovation
- **Strong innovation track record**
  Successful OTC-to-ETD product launches: volatility, dividend, total-return, MSCI and ESG derivatives

Technology
- **Strong technology track record**
  Best in class in connectivity, performance, scalability and market model functionality

Net revenue breakdown 2018

100% = €936 million

- **Index ETD**
  €510 million
  54% of total
  +20% y-o-y

- **Other**
  €148 million
  16% of total
  +12% y-o-y

- **Fixed income**
  €278 million
  30% of total
  +17% y-o-y

- **Equity ETD**

1) Including margin fees on OTC clearing related collateral
2) GFF (Global Securities Funding and Financing) incl. Eurex Repo
3) Including net interest income and securities collateral fee
4) Including net revenue from connectivity and member fees
1. Eurex (financial derivatives) – secular drivers help to grow and diversify product portfolio

Secular drivers and opportunities

**Global indices**
- Shift to passive strategies accelerates buy-side demand for index trading
- Global demand for international benchmarks across time zones
- Trading hours extension supports structural diversification and global ambition

**Futurisation**
- Shift to central clearing accelerates OTC-to-ETD futurisation
- Increasing demand for innovative ETD to facilitate overlays and synthetic strategies
- Portfolio margining extensions support product diversification

Growth dynamics in new products (Q1/2019)

**MSCI Futures & Options**
- 4.7m Contracts Traded Q1 2019
- +14% yoy
- €95bn Open Interest as of end Q1 2019

**ETF Options**
- 1.4m Contracts Traded Q1 2019
- +3,500% yoy
- €2.4bn Open Interest as of end Q1 2019

**Total Return Futures**
- 0.8m Contracts Traded Q1 2019
- +144% yoy
- €34bn Open Interest as of end Q1 2019

**Dividend Products**
- 5.7m Contracts Traded Q1 2019
- +43% yoy
- €37bn Open Interest as of end Q1 2019

Strategic positioning

The global venue for benchmark indices

Reduce cyclical dependency
Reduce product concentration
Eurex (financial derivatives) – growth in OTC clearing supports fixed-income expansion

Secular drivers and opportunities

Shift to central clearing

- Balance sheet and cost pressure drive demand for central clearing
- Margin and collateral efficiencies across OTC and ETD and across derivatives, repo and sec financing supports Euro benchmark ambition
- Market demand for liquid, EU-based alternative for OTC interest rate derivatives

Strategic positioning

Increase market share in OTC clearing

Product portfolio strategy

Leverage coverage across OTC, ETD and repo

Growth dynamics in OTC clearing

1) Reflects newly admitted clients since 1 January 2019, 2) Multiple clearing relations of the same entity are not counted, 3) Based on ADV and subject to the ECAG trading calendar
**EEX (commodities) – leading European energy exchange with growing US business**

**Business overview and attractions**

- **Leading power trading platform worldwide**
  - #1 in European derivatives with 72% on-exchange market share (31% including OTC)
  - #2 in US derivatives with 21% market share
  - Growth dynamics: +6% in spot, +19% in derivatives (excl. Nodal)

- **Gas**
  - #2 in European derivatives with 9% on-exchange market share (4% including OTC)
  - Growth dynamics: +34% in spot, -26% in derivatives

- **Emissions**
  - #2 in European emissions with 20% of total trading and auctioning market
  - Growth dynamics: +2% in spot, +318% in derivatives

- **Revenue lever**
  - Record net revenue 2018 with €257 million
  - Revenue dynamics: +21% in 2018, midterm growth CAGR 2018-20E >10%

---

**Net revenue breakdown 2018**

100% = €257 million

```
Power spot
28%

Power derivatives
26%

Gas spot and derivatives
32%

Other\(^2\)
14%
```

---

1) Market share and growth figures based on 2018 volumes
2) Including net revenue from connectivity, member fees and emission allowances
2 EEX (commodities) – increasing demand for more efficient on-exchange trading and clearing

Secular drivers and opportunities

- Efficiencies of on-exchange (ETD) vs. OTC markets (e.g. driven by share of renewables)
- Lever strong position in European gas spot market to strengthen role in gas derivatives market
- Expansion of emissions trading in Europe and development of markets in other time zones
- Diversification strategy with focus on new geographical markets and multi-commodity offering

Growth dynamics across power, gas and emissions

- **Power spot**
  - CAGR 9%
  - 2012: 28 TWh, 2018: 48 TWh

- **Power derivatives**
  - CAGR 29%
  - 2012: 78 TWh, 2018: 365 TWh

- **Gas markets (spot and derivatives)**
  - CAGR 72%
  - 2012: 6 TWh, 2018: 164 TWh

- **Emission markets (auctions and derivatives)**
  - CAGR 50%
  - 2012: 21 Million t CO2, 2018: 241 Million t CO2

Strategic positioning

The preferred global commodities exchange

Product and market portfolio strategy

Increase market share vs OTC and enter into new markets
### Business overview and attractions

<table>
<thead>
<tr>
<th>Liquidity</th>
<th>▪ Top-ranked global FX trading platform with strong FX liquidity with &gt;200 liquidity providers</th>
</tr>
</thead>
</table>
| Awarded technology | ▪ Best-in-class technology; seamless execution and solutions  
▪ 2018 FX Week Awards: best professional e-trading venue and vendor for dealing technology |
| Client growth | ▪ Broad and growing international client base with corporates, MTBs, institutionals and asset managers  
▪ Secular growth of 9% in 2018 through addition of new clients |
| Global expansion | ▪ Expansion in FX spot / inter-bank trading as well as in the US by acquiring GTX ECN in 2018 |

### Net revenue breakdown 2018

100% = €79 million

- **Swap**: 30%
- **Spot**: 33%
- **Forward**: 18%
- **Other**: 19%

1) Including net revenue from connectivity and member fees
3 360T (foreign exchange) – FX platform with multiple growth drivers

Secular drivers and opportunities

Ongoing electronicisation
- Ongoing shift to electronic execution across regions and client segments
- Growth in Americas and APAC; growth from asset managers, hedge funds, market taking banks

Innovation
- New products and services: trading mechanisms (T7 / CLOB), workflows (EMS) and market data (Swap pts)

Futurisation
- Excellent proposition for FX ETD (e.g. rolling spot and classic futures)

Central clearing
- Strong proposition for centralised credit mitigation: OTC FX and cross-currency clearing

Growth dynamics in FX products

Adv; €bn

+9% CAGR

Expand globally, win new clients, launch new products / services to holistically serve FX OTC and ETD

Xetra (cash equities) – reference market for German equities and revenue enabler across the value chain

Business overview and attractions

- **Reference market for German equities** with market share in DAX grown to >68% (up from 58% in Q2/2016) and strong retail position in Germany
- **European market leader in ETF trading**
- **Strong pre-IPO ecosystem** developed in recent years providing solid IPO pipeline
- **Attractive integrated equity clearing** subject to Open Access regulation (MiFID II) – limited impact on business expected

Net revenue breakdown 2018

100% = €229 million

17% Trading & clearing
8% Listing
75% Other

Entry point of Deutsche Börse’s value chain

**Enabler for revenue** in other businesses across the value chain in total doubling Xetra’s net revenue

1) Including net revenue from connectivity and partner markets
Xetra (cash equities) – growth path with clear priorities beyond capturing cyclicality

Secular growth opportunities

Win in the core
- Expand reference market position with enhanced trading offerings, in particular for large-in-scale orders, with focus on equities / ETFs
- Gain trading volumes from OTC and SI
- Strengthen the pre-IPO ecosystem
- Expand European market position in fast-growing ETF market (+17%); partner with ETF issuers; gain flow from MTFs and OTC

Expand into new services
- Develop issuer and corporate services, introduce a digital format vis-à-vis issuers
- Enter and grow newly tradeable asset classes and leverage thematic trends (e.g. green bonds)

Strategic imperative
Increase market share vs competitors and OTC / capture cyclicality / maintain high profitability in a slowly growing market

<tr>
<td>Investor CSD / T2S</td>
<td>Global</td>
<td>Among the top 4 global collateral managers</td>
</tr>
</tbody>
</table>

 Biggest continental European securities issuance hub

~8% custody market share and links to 80% of T2S volume

Secular industry drivers

- Continued integration / efficiency pressure post-T2S for European custody providers
- CSDR and wider regulatory requirements increasing critical size for CSDs
- Sell- and buy-side focus on funding / collateral and settlement efficiency
- New technology opportunity for players with ability to set industry standards
- Global growth for third-party fund distribution
- Efficiency pressure of buy-side value chain
- New service requirements

¹) 2018 net revenue
²) Clearstream’s market share of T2S markets excluding Issuer CSD (DE / LU) assets
Clearstream – custody revenue stream combined with stable client cash deposit base

Product overview and development focus

Issuer CSD
- Singular issuance point for DE securities optimised through new technology and pan-European offering post CSDR (e.g. warrants, bonds)

Eurobond market
- Central node of Eurobond issuance ecosystem focused on stepping up attractiveness to issuers and partners globally (e.g. China, “European capital markets union” drive)

Investor CSD / T2S
- European custody product anchored in access to all T2S markets and relevant CCPs
- Replacing reduced settlement revenue with custody fees, e.g. through standardised value adding services

Global markets
- Highly efficient global network embedded in ICSD infrastructure, driving enhancement of links (e.g. US, Emerging Markets)

Net revenue breakdown 2018

100% = €718 million

- Custody 53%
- Net interest income 22%
- Settlement 11%
- Third-party services 4%
- Other 10%

Strategic imperative

Win volumes through efficiency and stronger value adding services

1) Including net revenue from connectivity, account services and reporting
Clearstream – Investor CSD roll-out is delayed due to competing priorities on client side and broadening client requirements

The Investor CSD is a long-term play that relies on 3 cornerstones …

- Shift of liquidity and trading flows in fixed income from ICSDs to CSDs
- Emergence of new market space in European equities that would benefit from our cross-border model
- Consolidation of the above-mentioned flows with ICSD fixed income assets to benefit from liquidity and collateral pooling on a single platform

… that faces delays

- Banks’ focus on other topics (especially Brexit)
- Dependency on third parties to set up cross-border connections

1) Central- and commercial bank money

- Safety
  - Agnostic CeBM / CoBM
  - CSDR-compliant supplier
  - AA-rated institution

Increased relevance to intermediaries
Clearstream – programme launched to capture full potential from secular growth

Cornerstones

Product focus
- Strengthen excellence focus in four product areas

Regulatory compliance
- Leverage rising regulatory compliance standards for differentiation

Internal efficiency
- Step change in straight through processing of remaining activities through digitisation and AI
- Optimize operational setup across Europe
- Realise savings from cloud and system consolidation / overhaul in IT

Momentum of long term growth
- Capture momentum from new technology-driven services for growth

Excellence in client management
- Differentiate from competition by client service quality
- Sales force effectiveness and focus

midterm 5-10% CAGR

+8%

t/o share of secular growth: moderate

Status:
(✓)
( secular growth delayed)
GSF (global securities financing) – secular growth opportunities on the basis of extensive counterparty network

**Product overview and development focus**

**Securities lending (48% of net revenue)**
- Established and credible counterpart for lenders and borrowers across a large set of asset classes
- Continued growth in securities lending by extending asset types (equities / ETFs) and leveraging T2S / Investor CSD
- Increased relevance of principal securities lending based on enhanced risk management capabilities
- Further diversification of securities lenders and borrowers and increased relevance of agency lending model

**Collateral management (52% of net revenue)**
- Custodian of choice for cleared and non-cleared OTC derivatives obligations
- Seamless link between collateral pools and ever expanding exposure type and venue coverage
- Harmonisation of collateral management platform and further development of collateral re-use opportunities
- Addressing collateral needs through innovative DLT-based solution developed in partnership with HQLAx

( but cyclical headwinds)
IFS (investment fund services) – leading infrastructure for the fund industry

Business overview and key features

- **Leading provider** of international fund order routing, administration, settlement and custody services
- Assets under custody: €2.4 trillion; number of transactions processed: 25 million (both 2018)
- **Leading technology** platform Vestima®
- **Clients** from >70 countries
- More than 190,000 eligible funds of **all types** (mutual funds, ETFs, hedge funds etc.) from >40 **domiciles**
- Strong track record of client onboarding

Net revenue breakdown 2018

100% = €154 million

- Custody: 43%
- Settlement: 32%
- Other 1): 25%

Strategic imperative

Win market share by onboarding new clients and funds, entering new geographies and new services organically or by bolt-on M&A

1) Including net revenue from connectivity, order routing and Clearstream Funds Centre
IFS (investment fund services) – strong secular growth opportunities on the basis of service and regional expansion

Secular growth opportunities

New clients and funds
- Expansion of service to alternative funds
- Increased service offerings for ETFs
- New (growth) geographies
- Acquisition of Ausmaq Ltd. will provide exposure to the fast-growing Australian funds market
- „Follow-the-client“ approach centered in Asia

New services
- Increased revenue flows due to the addition of distribution intermediation capabilities through the integration of Swisscanto Funds Centre
- Extension of fund issuance services to domestic CSDs and T2S
- **Medium-term: bring Vestima to the next stage of evolution leveraging blockchain technology**

# IFS (investment fund services) – strengthening growth potential through tactical bolt-on acquisitions

## Swisscanto Funds Centre (April 2018)

**Description**
- Distribution intermediation capabilities: distribution contract management, commission management, fund and suitability data, as well as marketing support

**Rationale**
- Integration of an adjacent and highly synergetic data service offering with Clearstream’s strong investment fund settlement, custody and order routing services

**Benefits in realisation**
- Custody-related synergies and efficiencies began to accrue immediately following asset migration
- UK staff integration to generate further synergies
- Market launch of newly-branded “Funds Desk” distribution intermediation service with positive interest from Clearstream client base

## Ausmaq (May 2019)

**Description**
- Specialist managed funds services business from National Australia Bank

**Rationale**
- Entry point to the Australian fund market, currently worth in excess of €2 trillion assets under custody
- Exposure to expanding market, with steady ~10% growth driven by compulsory salary contributions to the superannuation industry

**Expected benefits**
- Broadening of service range available on the Vestima platform, with the addition of 1,400 managed funds
- Positive impact on margin with the addition of 350,000 transactions per year based on scalable model
- “Running start” to accompany global fund clients into Australia

Innovation is in our DNA – technology has been at the core of Deutsche Börse’s success

Selected technological milestones

- Deutsche Börse IT established its leading position by
  - Launching **electronic trading** system Xetra
  - Founding **derivatives exchange** Eurex
  - Launching **commodity market trading** platform
  - Introducing **risk management** system Prisma
  - Renewing the **trading and clearing systems “T7” and “C7”** (technology refresh)
  - Establishing **distributed-ledger technology (DLT)** centre of excellence
  - Establishing **strategic partnership with Microsoft Azure** to enable migration of material workloads to cloud

Key strengths of Deutsche Börse IT

- **Infrastructure technology leader** with strong track record for high-volume market infrastructure and large-scale data processing
- **Operating excellence** with high process reliability, stability and scalability
- **Credible and reputable infrastructure provider** qualifying as a strategic partner for innovative IT solutions
Deutsche Börse IT is in a position of strength to act on overarching trends and maintain a market leading position

**Clients** demanding an outstanding service, increased transparency and reliable systems

**Technology** advancements (e.g. cloud, DLT) disrupting / transforming market structures and enabling new business models

**Regulators** enforcing strict(er) requirements (e.g. for data protection)

**Partnering with top companies** to leverage opportunities and investments

**Competitive environment** with increasing cost pressure and ongoing market consolidation

**Employees and digital talent** demanding development opportunities and new ways of working in the ongoing **competition for talent**
Our vision is to be the leading technology provider

**Build up new technologies**
(cloud, distributed-ledger, automation, as well as big data and advanced analytics) for our existing businesses and new markets

**Establish strategic partnerships**
with selected top companies complementing Deutsche Börse to ensure a powerful value proposition in ecosystems

**Maintain high delivery quality** and efficient, stable and secure operations; increase innovating performance for our businesses, ensure seamless customer experiences
Deutsche Börse IT has started an evolution of its core IT – clear benefits to customers and business units visible

<table>

---

\(1\) COBIT (Control Objectives for Information and Related Technologies) is the industry standard framework for IT management and governance

**Not exhaustive**
## Innovation agenda of Deutsche Börse IT

- **Focus on quick and large-scale cloud adoption** as underlying innovation enabler
- Develop focused partnerships for DLT, big data and advanced analytics
- Extend automation capabilities by implementing leading platform, **executing solid use case pipeline**

## Performance transformation centres of excellence (CoE)

### Focus today

<table>
<thead>
<tr>
<th>Distributed-ledger technology</th>
<th>Automation</th>
<th>Big data and advanced analytics</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strategic partnerships create Swiss ecosystem</td>
<td>Automation tools in production, first use cases deployed (&gt;100), multi-purpose platform in design</td>
<td>Design of an integrated machine learning platform kicked-off</td>
</tr>
<tr>
<td>First products market-ready in 2019</td>
<td>Continuous pipelining of cases</td>
<td>First use cases in analysis</td>
</tr>
<tr>
<td>Legally binding repo transaction with Commerzbank</td>
<td>Directly contributing to cost performance improvements</td>
<td></td>
</tr>
</tbody>
</table>

### Cloud

- Compliant **ambitious approach** to migrate material workloads to cloud
- Use strategic partnerships to set contract standards in the EU
We are committed to use public cloud as a driver for innovation and efficiency

Cloud strategy

- Move now to benefit fast, work with market leaders, execute in waves over next years
- We expect speed, automation and resilience
- We will invest a high double-digit million euro amount (expected payback after ~3 years) and take a leading position

2019

- Established partnership with Microsoft Azure, addressing regulatory requirements ensuring compliance
- Partnerships with other leading cloud service providers in negotiation
- First wave: migrating test and development systems to cloud, migrating material enterprise workloads
- Prepare 2020 moves to cloud

2020

- Migrate substantial share of business apps and production workloads to cloud, retire back-up centres
- Drive agility, innovation and cost efficiency
- Increase performance and stability of core products through cloud features
- Prepare 2021 moves to cloud

Expected benefits

- Agility and faster time to market
- Higher reliability and global scale
- Higher quality, better security, lower risk
- Efficiency through more automation and standardisation
- Leverage native cloud capabilities like machine learning services to benefit from ecosystem
Tokenised economy on DLT / blockchain will redefine financial markets

Tokenisation of assets

- Broad spectrum of assets can be tokenised, e.g. financial instruments, real estate and art
- By tokenising traditional assets, a digital representative with smart features and real underlying value is created

Infrastructure for digital assets

- Digital assets need a trusted, comprehensive, regulatory compliant infrastructure
- This infrastructure is the basis for the registration, safekeeping and transfer of digital assets

Deutsche Börse …

- … is in a perfect position to lead the marathon for establishing an infrastructure for digital assets.
- … has the possibility to broaden business scope and tap into new revenue pools when new asset classes (tokenised assets) will be created in a DLT environment.
- … sees potential business value in the DLT / blockchain space within the next 10 years up to €1 billion (expected market size in 2030: US$3.1 trillion).
Regulatory framework and product perspective of Swiss market environment as basis for an integrated ecosystem offering

---

**Ecosystem development**

- Strategic partnership with Swisscom and Sygnum to jointly **build and grow an ecosystem for digital assets** in Switzerland
- The core includes **issuance, custody, access to liquidity, and banking services** – all leveraging distributed-ledger technology
- The partnership is **strengthened through cross-shareholdings in two early-stage companies** (Custodigit AG and Daura AG)
- Tokenisation of assets as the **next level of asset digitisation** is transforming current economic landscapes
- Providing a **clear value especially for institutional buy-side clients** and empower them to tap into these new asset classes

---

**Integrated offering**

- **Initial ecosystem parties**
  - **Build, load and operate financial market infrastructure**
  - **Trusted distributed ledger technology infrastructure**
  - **Enterprise grade, fully compliant technical solution for custody**
  - **Sygnum**
    - Integrated banking services to manage digital assets
  - **Daura**
    - Integrated equity issuance solution
Deutsche Börse IT will establish strong strategic partnerships to accelerate innovation and enable growth

**Key objectives for strategic partnerships**

- Align roadmaps and co-invest into joint innovation to increase efficiencies and gain scale
- Broaden the product and service offering and tap into new growth markets
- Actively shape the ecosystem and get in touch with new talent pools

**Examples of already established partnerships**

- **Microsoft**
  - Accelerating our cloud adoption and innovation for common clients

- **HQLA**
  - Distributed-ledger technology to help market participants to redistribute liquidity more effectively

- **Swisscom** and **SYGNUM**
  - Joint venture to build a digital asset ecosystem

- **COMMERZBANK**
  - Conducting blockchain proof-of-concepts together (e.g. for legally binding repo transactions)
Agenda

So far, 2019 on track
“Roadmap 2020” financial targets confirmed

**Growth targets 2017-2020**

**Net revenue:** Secular growth of at least 5% on average per annum plus positive cyclical effects

**Net profit:** Growth of 10-15% on average per annum

**Additional external growth:** Value accretive M&A in five focus areas; €1.5bn cash / debt firepower + equity

**Cost management**

**Scalability:** Operating costs managed to achieve 10-15% net profit CAGR 2017-2020

**Structural performance improvement programme:** >€100 million cost reduction to finance growth, new technologies and regulation

**Capital management**

**Dividend:** 40-60% of net profit depending on business development and continuity considerations

**Rating:** “AA” because of post-trading business; new rating metrics: net debt/EBITDA <1.75 and FFO/net debt >50%

**Excess cash:** Planned to be reinvested via M&A; in case no use buy-backs considered
